T-8 PlankWall®

is a painted metal that offers architects and designers an alternative to real wood. Get the look of wood and the benefits of metal.

FOUR-PART WALL & SOFFIT SYSTEM

T-8 PlankWall® panels are installed using four different types of wood grain patterns to form a 4-part wall and soffit system. This applies to all colors except Burnt Wood, where only one consistent pattern is available.

Eliminates repetitive patterns and creates a natural appearance.
