THE VERSATILE AND ENGAGING RUSTIC METAL SOLUTION

Rustic Rawhide®

Steelscape's Rustic Rawhide provides an unmatched color experience using the engaging combination of color and texture. Deploying our patented printing over texture process, Rustic Rawhide features a multi-toned weathered metal design in conjunction with a wrinkled paint system for optimum authenticity.

The textured finish interacts dynamically with light to recreate the feel of traditional oxidized metal while minimizing surface sheen. Rustic Rawhide offers a restrained color that blends exceptionally well with a variety of architectural styles and material types.

This stunning finish presents all the beauty of weathered metal without any of the traditional headaches, such as unsightly rust runoff, appearance deterioration, and compromised performance. As a painted finish, it offers the protection of a complete 30 year film integrity finish warranty.

Offering both beauty and performance, Rustic Rawhide is the ideal finish for metal roofing and siding, including standing seam roofing, corrugated siding and interior wainscoting.
